PROFESSIONAL SUMMARY

Detail-oriented and motivated B.Tech Artificial Intelligence and Data Science student with foundational knowledge in Python, Machine Learning, Power BI, and Data Analysis. Passionate about developing intelligent systems and solving real-world problems using technology. Experienced in data-driven solutions, dashboard development, predictive modeling, and AI-based applications. A quick learner with strong analytical and problem-solving skills, seeking opportunities to grow as a Machine Learning or Data Science Engineer.

EDUCATION

B.Tech – Artificial Intelligence and Data Science

AKT Memorial College of Engineering and Technology, Kallakurichi | Anna University | 2023–2027 | Pursuing | CGPA: 8.2/10 (up to 6th Semester)

Higher Secondary Certificate (12th – Maths Biology Group)

AKT Academy Matric Higher Secondary School | 2022–2023 | Percentage: 85%

Secondary School Leaving Certificate (SSLC)

AKT Academy Matric Higher Secondary School | 2020–2021

TECHNICAL SKILLS

Programming Languages: Python (Basics), Java (Basics)

AI & Machine Learning: Machine Learning, Classification, Regression, Prediction Models, Model Development

Data Science: Data Preprocessing, Data Analysis

Libraries: NumPy, Pandas, Scikit-learn, OpenCV

Data Visualization: Power BI, Dashboard Development, Data Analysis & Reporting

Web/Application Development: HTML, CSS, JavaScript, Streamlit, Gradio

Tools & Platforms: Git, GitHub, VS Code, Kaggle, UCI

Office Tools: MS Excel (Basics), MS Word (Basics)

PROJECTS

1. Color Detection from Images – Naan Mudhalvan Mini Project

- Developed a mini project focused on detecting and identifying colors from digital images using image processing techniques.
- Explored image-based color analysis and practical AI/computer vision application development.

2. Forecasting House Prices Using Smart Regression Techniques

- Developed a predictive model to estimate house prices using regression algorithms.
- Performed data preprocessing and applied machine learning techniques for price prediction.

INTERNSHIP

SAMCORE – Machine Learning Internship

- Gained practical experience in Machine Learning concepts and workflows.
- Worked on data preprocessing, model building, training, and evaluation.
- Applied Python and Machine Learning techniques to practical datasets.

CERTIFICATIONS

- Advanced Java Programming (Value Added Course) – In association with VEL Technologies Pvt. Ltd.
- Workshop: Build and Develop Your Own AI Model – ATAL Incubation Centre, PEC Foundation
- TCS iON National Qualifier Test (NQT) – Score: 54.09
- NPTEL Course: Cloud Computing – In Progress
- Google Cloud Engineering Certificate
- Cisco Cyber Security Course – Completed
- Naan Mudhalvan Certification

ACHIEVEMENTS & PARTICIPATION

- Participated in National Level Symposium.
- Participated in International Level Conference.
- Successfully completed Learning to Advance Valued Course.
- Completed relevant AI & Machine Learning training.

SOFT SKILLS

Team Collaboration | Team Coordination | Leadership | Problem Solving | Critical Thinking | Quick Learner

AREAS OF INTEREST

Artificial Intelligence | Machine Learning | Data Science | AI Application Development | Cybersecurity | Cloud Computing

DECLARATION

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.

Place: Kallakurichi

Date: _____
